EDUCATION

Tashkent State University of Economics	<i>2024–2028 (Expected graduation)</i>
- Field of study: Economics - Related courses: Macroeconomics, Applied Econometrics, Microeconomics, Statistics, Marketing, Applied Mathematics, Economics and Business.	Tashkent, Uzbekistan

EXPERIENCE

Farobiy IT Academy	<i>May 2026 – September 2026</i>
<i>Data analyst Intern</i>	<i>Tashkent, Uzbekistan</i>
- Analyzed customer and campaign data using SQL, Python (pandas), and Excel; used Power BI/Tableau for visualization to track retention and customer-value metrics for business campaigns. - Performed cohort-based retention analysis and built a rule-based early-warning system (inactivity thresholds) to flag churn-risk customers before drop-off. - Segmented customers with RFM (Recency, Frequency, Monetary) analysis and computed LTV/CAC ratios per segment, identifying low-return groups and supporting budget reallocation recommendations for marketing and sales teams.	
AT Aloqabank	<i>June 2026 – August 2026</i>
<i>Manager (Customer Data & Operations, Paid-Intern)</i>	<i>Tashkent, Uzbekistan</i>
- Ensured accuracy and quality of transactional data logged into banking systems, reducing entry errors for operational reporting. - Identified customer behavioral patterns to tailor financial product offerings, optimizing cross-selling efficiency and enhancing client satisfaction.	

PROJECTS

Amazon Sales & Revenue Trend Analysis	<i>MS Excel PostgreSQL Aggregations Pivot table Charts</i>
- Analyzed 50K+ transaction records across multiple regions and product categories using PostgreSQL and Excel to evaluate revenue drivers and seasonal patterns. - Identified a false-drop seasonality anomaly in February revenue by normalizing metrics to Daily Average Revenue (\$44.7K/day vs. \$44.5K in March), disproving superficial drop assumptions caused by calendar length differences. - Evaluated pricing and promotion impacts, confirming consistent average order value (\$665) and discount rates (13.2%) while formulating targeted promotional strategies to bridge short-month revenue gaps.	
Stock Market Analysis Pipeline	<i>Python Pandas Matplotlib Seaborn ETL pipelines</i>
- Built an end-to-end ETL pipeline in Python on 5 years of US stock data (592 equities, 217K+ records), tracking 16 IPO listings to control for survivorship bias. - Diagnosed a methodology flaw in automated split-detection (false positives on high-dividend stocks like VZ, MO) by cross-checking against real split events, and proposed a corrected threshold to prevent data leakage. - Engineered a dollar-liquidity metric (Price × Volume) to rank the Top 20 most liquid US equities (NVDA, AMZN, TSLA, AAPL, GOOGL). - Validated sector-based pairs-trading signals via Pearson correlation and Mann-Whitney U test (same-sector corr. 0.49 vs. cross-sector 0.31, $p < 0.001$). - Built a rule-based market-regime classifier (Bull/Bear/High-Vol/Normal); found NVDA a statistical outlier (+802% return), consistent with the 2023–2024 AI rally.	

Global Video Game Sales Analytics Dashboard *Power BI | DAX | Data modeling*

- Designed and developed an interactive Power BI dashboard analyzing 16,598 video games across global markets, processing total sales of 8,920M units.
- Engineered regional sales distribution metrics (NA: 49.2%, EU: 27.3%, JP: 14.48%) and genre performance visuals to identify key revenue-generating markets.
- Constructed publisher and platform analysis visualizers, tracking output volume across industry leaders like Electronic Arts, Activision, and Namco Bandai.

SKILLS

- **Technical Skills:** SQL(PostgreSQL, window functions, data extraction, CASE WHEN logic, JOINS), Python(Pandas & NumPy, Matplotlib, Seaborn), Power BI(Power Query Editor, DAX, interactive slicers), Advanced MS Excel, MS PowerPoint
- **Analytical/Business Intelligence:** Cohort Analysis, Business Metrics (LTV, CAC, Retention, Churn), Financial & Econometric Modeling, Statistical Analysis, A/B testing, critical thinking, strategic planning, quantitative analysis.
- **Soft skills:** Strong interpersonal communication skills, self-discipline, teamwork, adaptability, strong relationship building, creativity.
- **Languages:** Uzbek (C1), English (B2), Russian (B2).

EXTRA TRAINING AND CERTIFICATES

- **Economics Study Group, Tashkent State University of Economics (2024-present):** Collaborate with peers to discuss economic trends, analyze case studies and prepare for academic competitions.
- **Salesforce Certified Tableau Consultant.**
